(B) No more than 2 swordfish per trip may be possessed in or from the Atlantic Ocean north of 5° N. lat. or landed in an Atlantic coastal state on a vessel that has been issued a handgear permit under § 635.4(f)(1) provided that such swordfish were not taken with a harpoon.

(ii) When the directed fishery for the South Atlantic swordfish stock is closed, swordfish from that stock taken incidental to fishing for other species may not be retained.

(2) *Incidental catch closure.* When the annual incidental catch quota specified in § 635.27(c)(1)(i) is reached, or is projected to be reached, NMFS will file with the Office of the Federal Register for publication notification of closure. From the effective date and time of such notification until additional incidental catch quota becomes available, no swordfish may be landed in an Atlantic coastal state, or be possessed or sold in or from the Atlantic Ocean north of 5° N. lat. unless the directed fishery is open and the appropriate permits have been issued to the vessel. In the event of a directed and incidental North Atlantic swordfish category closure, South Atlantic swordfish may be possessed in the Atlantic Ocean north of 5° N. lat. and/or landed in an Atlantic coastal state on a vessel with longline gear onboard, provided that the harvesting vessel does not fish on that trip in the Atlantic Ocean north of 5° N. lat., the fish were taken legally from waters of the Atlantic Ocean south of 5° N. lat., and the harvesting vessel reports positions with a vessel monitoring system as specified in § 635.69.
